

Landi Tables

Various possibilities with Landi tables

The Landi tables were designed for the Oerlikerpark together with the Landi double benches. The objective of the development was the transformation of an industrial area into a residential area. The park is designed for a wide variety of uses and all areas can be accessed freely. The Landi furniture adapts well to the overall surroundings.

The tables invite passersby to linger or enjoy a picnic in the space. Whether for short breaks or an outdoor lunch, these combinations are particularly well suited for commercial and service areas that are looking to create green spaces.

The Landi table is also available with an offset frame so that wheelchair users can sit at the front.

Version:

- Galvanized tubular steel frame
- Stainless steel bolts
- Solid wood seat slats
 - Natural larch
 - ARBODUR® (Thermo Ash finish)
 - NATWOOD® (Thermo Ash finish)
 - Natural Robinia
