

Park – bench programme

The popular robust seating system for longer stays

Park is the proven bench programme with artificial stone tables and stools for picnic areas, scenic vantage points or walking paths – simply for places where people stay awhile. They have been used for a long time in Switzerland and are a part of the townscape in many places.

Park – tables and stools

Stools and artificial stone tables for picnic areas, scenic vantage points or playgrounds

The artificial stone tables, chess and nine men's Morris tables and the stool turn this seating programme into the perfect team for spending time, relaxing and playing outdoors, for all ages. Great for walking paths, scenic vantage points parks or playgrounds.

Construction

Park stool
- Hot-dip galvanised frame
- Seat timbers either pine painted red (RAL 3004) or untreated larch

Park tables

- Grey, polished artificial stone tabletops
- Games table with inset game surface
- Generously dimensioned, hot-dip galvanised square steel tube feet and supports or concrete elements

Other artificial stone colours or special constructions available on request.
